# International Gutter Guard

GutterDome is the premier manufacturer of gutter guard products for homeowners throughout North America. We invited the firm's Principal Jeffrey McCoy to tell us more.

**E**stablished in 2010, GutterDome has since been dedicated to providing its Dealer network with industry-leading gutter protection systems. The firm draws on the over 40 years' experience of its executive team across a variety of disciplines, including manufacturing, marketing, finance, client retention, and sales to offer the very highest standard of gutter maintenance solutions, as Jeffrey outlines.

“Our products offer a **permanent solution** to an annual problem. Each year, countless hours are spent cleaning clogged and debris filled rain gutters.”

“GutterDome, Inc. is the manufacturer of award winning gutter protection systems with a network of dealers nationwide. Designed for professional installation, the gutter protection systems we manufacture are among the finest on the market thanks to their exceptional durability, low-maintenance design, and the fact that they can be installed on nearly any home.

“Our products offer a permanent solution to an annual problem. Each year, countless hours are spent cleaning clogged and debris filled rain gutters. This is a time consuming and dangerous task which is eliminated by installing GutterDome gutter

guards. Our cutting edge siphoning technology and innovatively designed gutter guards prevent clogged rain gutters and eliminates gutter cleaning for all-time.”

Central to Jeffrey's leadership strategy is keeping all business decisions focused on enhancing the consumer experience and making sure that they actively listen to comments and feedback from the firm's vast Dealer network. This approach is extended both internally and externally, as Jeffrey firmly believes that if staff are supported and communicated with then clients will receive the same treatment also.

“Here at GutterDome we operate an open-door policy that encourages associate two-way communication, constructive feedback and active participation in the growth of the company, both for staff and clients.”

Looking ahead, Jeffrey is excited for the future as GutterDome seeks to grow and expand in order to build upon its current success.

“Moving forward, the Pacific Northwest is a rapidly expanding market for gutter guards based on the area demographics, dense tree canopies and annual rainfall for the entire region. In order to capitalize on this GutterDome is due to significantly expand our Dealer network across Florida, Illinois, Minnesota, New Jersey, Ohio, Oregon, Texas, Washington and Wisconsin. This presents a number of exciting opportunities and we look forward to reaping the benefits of these.”
